

cl_nav2z::CbPauseSlam
::onEntry

cl_nav2z::CbResumeSlam
::onEntry

cl_nav2z::CpSlamToolbox
::toogleState

```
graph LR; A[cl_nav2z::CbPauseSlam::onEntry] --> C[cl_nav2z::CpSlamToolbox::toogleState]; B[cl_nav2z::CbResumeSlam::onEntry] --> C;
```

The diagram illustrates a functional dependency. On the left, two separate boxes represent callback functions: 'cl_nav2z::CbPauseSlam::onEntry' (top) and 'cl_nav2z::CbResumeSlam::onEntry' (bottom). Both boxes have a light gray fill and a black border. On the right, a single box represents the target function 'cl_nav2z::CpSlamToolbox::toogleState', which has a darker gray fill and a black border. Two blue arrows originate from the right side of the left boxes and point towards the left side of the right box, indicating that both callback functions are associated with or call the 'toogleState' function.
