

smacc2::ISmaccStateMachine
::disposeStateAndDisconnectSignals

```
graph LR; A["smacc2::ISmaccStateMachine  
::disposeStateAndDisconnectSignals"] --> B["smacc2::ISmaccStateMachine  
::getLogger"]
```

A diagram showing a call from the `disposeStateAndDisconnectSignals` method to the `getLogger` method. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.
