

smacc2::Transition
::reactions::react_with
_action

smacc2::Transition
::reactions::react_without
_action

smacc2::specificNamedOnExit

smacc2::specificNamedOnExit

```
graph LR; A["smacc2::Transition<br/>::reactions::react_with<br/>_action"] --> D["smacc2::specificNamedOnExit"]; B["smacc2::Transition<br/>::reactions::react_without<br/>_action"] --> D; C["smacc2::specificNamedOnExit"] --> D;
```

The diagram illustrates a directed graph with four nodes. Three nodes are arranged vertically on the left, and one node is on the right. Arrows point from each of the three left nodes to the single right node. The right node is shaded gray, while the others are white with black borders. The text in the boxes is as follows:

- Top-left box: smacc2::Transition, ::reactions::react_with, _action
- Middle-left box: smacc2::Transition, ::reactions::react_without, _action
- Bottom-left box: smacc2::specificNamedOnExit
- Right box: smacc2::specificNamedOnExit
