

```
boost::statechart::  
event< EvMoveGroupMotionExecution  
      Failed< TSource, TOrthogonal > >
```

The diagram shows a vertical inheritance relationship. A blue arrow with an open triangular head points from the bottom class to the top class. The top class is white with a black border, and the bottom class is gray with a black border. Both classes are divided into three horizontal sections. The top section of each class contains C++ code. The bottom class is a specialization or implementation of the top class.

```
cl_move_group_interface  
::EvMoveGroupMotionExecution  
Failed< TSource, TOrthogonal >
```
