The diagram illustrates a dependency or inheritance relationship. Three source functions on the left (cl\_nav2z::CostmapSwitch::disable, cl\_nav2z::CostmapSwitch::enable, and cl\_nav2z::CostmapSwitch::onInitialize) are connected by blue arrows to a single target function on the right (cl\_nav2z::CostmapSwitch::getStandardCostmapName). The target function box is shaded gray, while the source function boxes are white with black borders.
