

cl\_nav2z::odom\_tracker  
::OdomTracker::updateRecordPath

```
graph LR; A[cl_nav2z::odom_tracker::OdomTracker::updateRecordPath] --> B[cl_nav2z::odom_tracker::p2pDistance]
```

A diagram showing a call from the `updateRecordPath` method of the `OdomTracker` class to the `p2pDistance` variable. The source box is shaded gray and the target box is white. A blue arrow points from the source to the target.
