

smacc2/include/smacc2
/smacc_tracing/trace
_provider.hpp

```
graph TD; A["smacc2/include/smacc2  
/smacc_tracing/trace  
_provider.hpp"] --> B["lttng/tracepoint.h"]; A --> C["lttng/tracepoint-event.h"];
```

The diagram illustrates the include relationships for the `smacc2` tracing provider. A central box at the top represents the provider header file, which includes two LTTNG headers: `lttng/tracepoint.h` and `lttng/tracepoint-event.h`. Blue arrows point from the top box to each of the bottom boxes.

lttng/tracepoint.h

lttng/tracepoint-event.h
