The diagram shows a base class box at the top and a derived class box at the bottom. A blue arrow with an open triangle head points from the derived class box to the base class box. The base class box has three horizontal compartments: the top one contains the class name, and the other two are empty. The derived class box has three horizontal compartments: the top one contains the class name, the middle one contains the public attribute '+ waypointIndex', and the bottom one is empty.
