The diagram shows a base class box at the top and a derived class box at the bottom. The base class box is divided into three horizontal sections: the top section contains the text 'boost::statechart::event< EvWaypoint255< TSource, TOrthogonal > >', and the two bottom sections are empty. The derived class box is also divided into three horizontal sections: the top section contains the text 'cl\_move\_base\_z::EvWaypoint255< TSource, TOrthogonal >', the middle section contains '+ waypointIndex', and the bottom section is empty. A blue arrow with an open triangular head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.
