

smacc2::ISmaccState  
::notifyTransition

```
graph LR; A[smacc2::ISmaccState  
::notifyTransition] --> B[smacc2::ISmaccState  
::notifyTransitionFromTransition  
TypeInfo];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'smacc2::ISmaccState' on the first line and '::notifyTransition' on the second line. The right box is gray with a black border and contains the text 'smacc2::ISmaccState' on the first line, '::notifyTransitionFromTransition' on the second line, and 'TypeInfo' on the third line.
