

cl\_move\_group\_interface  
::CbWaitJointState::onEntry

```
graph LR; A[cl_move_group_interface::CbWaitJointState::onEntry] --> B[cl_move_group_interface::CbWaitJointState::onMessageReceived];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow. The left box is white with a black border and contains the text 'cl\_move\_group\_interface' followed by '::CbWaitJointState::onEntry' on the next line. The right box is gray with a black border and contains the text 'cl\_move\_group\_interface' followed by '::CbWaitJointState::onMessage' on the next line, and 'Received' on the third line. A blue arrow points from the right side of the left box to the left side of the right box.
