The diagram shows a base class box at the top and a derived class box at the bottom. A blue arrow with an open triangle head points from the derived class to the base class. The base class box has three horizontal compartments; the top one contains the text 'boost::statechart::event< EvWaypoint65< TSource, TOrthogonal > >', while the other two are empty. The derived class box has three horizontal compartments. The top one contains 'cl_move_base_z::EvWaypoint65< TSource, TOrthogonal >', the middle one contains '+ waypointIndex', and the bottom one is empty. The entire diagram is rendered in grayscale.
