

sm_single_ur5_sim_gazebo
_sim.launch_setup

ur_moveit.launch_setup

sm_single_ur5_sim_gazebo
_sim.load_yaml

```
graph LR; A[sm_single_ur5_sim_gazebo_sim.launch_setup] --> C[sm_single_ur5_sim_gazebo_sim.load_yaml]; B[ur_moveit.launch_setup] --> C;
```

The diagram illustrates a dependency or configuration relationship. On the left, there are two rectangular boxes. The top box contains the text 'sm_single_ur5_sim_gazebo_sim.launch_setup'. The bottom box contains the text 'ur_moveit.launch_setup'. On the right, there is a single rectangular box with a light gray background, containing the text 'sm_single_ur5_sim_gazebo_sim.load_yaml'. Two blue arrows originate from the right side of the two boxes on the left and point towards the left side of the gray box on the right, indicating that both launch setup files are used to load the configuration from the 'load_yaml' file.
