

sm_pack_ml::holding
_sequence_b::StiHoldingSequence
BLoop::loopWhileCondition

```
graph LR; A["sm_pack_ml::holding  
_sequence_b::StiHoldingSequence  
BLoop::loopWhileCondition"] --> B["smacc2::ISmaccState  
::getLogger"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains three lines of text: 'sm_pack_ml::holding', '_sequence_b::StiHoldingSequence', and 'BLoop::loopWhileCondition'. The right box has a white background and contains two lines of text: 'smacc2::ISmaccState' and '::getLogger'.

smacc2::ISmaccState
::getLogger
