

cl\_nav2z::CpCostmapSwitch  
::onInitialize

```
graph LR; A[cl_nav2z::CpCostmapSwitch::onInitialize] --> B[cl_nav2z::CpCostmapSwitch::registerProxyFromDynamicReconfigureServer];
```

A diagram showing a call from the `onInitialize` method of the `cl_nav2z::CpCostmapSwitch` class to the `registerProxyFromDynamicReconfigureServer` method of the same class. The call is represented by a blue arrow pointing from the left box to the right box.
