

smacc2::Transition  
::reactions::react\_with  
\_action

smacc2::Transition  
::reactions::react\_without  
\_action

smacc2::specificNamedOnExit

smacc2::specificNamedOnExit

```
graph LR; A["smacc2::Transition<br/>::reactions::react_with<br/>_action"] --> D["smacc2::specificNamedOnExit"]; B["smacc2::Transition<br/>::reactions::react_without<br/>_action"] --> D; C["smacc2::specificNamedOnExit"] --> D;
```

The diagram illustrates a relationship where three distinct elements on the left converge on a single element on the right. The elements on the left are: 1) A box containing 'smacc2::Transition' followed by a line break and '::reactions::react\_with' followed by another line break and '\_action'. 2) A box containing 'smacc2::Transition' followed by a line break and '::reactions::react\_without' followed by another line break and '\_action'. 3) A box containing 'smacc2::specificNamedOnExit'. All three of these boxes have a blue arrow pointing towards a single box on the right. This box on the right is shaded gray and contains the text 'smacc2::specificNamedOnExit'.
