The diagram illustrates a mapping or inheritance relationship. On the left, two white rectangular boxes represent source functions. The top box contains the text 'cl\_nav2z::CbNav2ZClientBehavior Base::cancelGoal'. The bottom box contains 'cl\_nav2z::CbAbortNavigation ::onEntry'. On the right, a gray rectangular box represents the target function, containing 'smacc2::client\_bases ::SmaccActionClientBase ::cancelGoal'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both source functions are associated with or mapped to the target function.
