

smacc2/include/smacc2  
/smacc\_tracing/trace  
\_provider.hpp

```
graph TD; A["smacc2/include/smacc2  
/smacc_tracing/trace  
_provider.hpp"] --> B["lttng/tracepoint.h"]; A --> C["lttng/tracepoint-event.h"];
```

The diagram illustrates the include relationships for the `smacc2` tracing provider. The top box, representing `smacc2/include/smacc2/smacc_tracing/trace_provider.hpp`, has two blue arrows pointing downwards to two separate boxes below it. The left box represents `lttng/tracepoint.h` and the right box represents `lttng/tracepoint-event.h`. This indicates that the `smacc2` tracing provider includes both the general LTTNG tracepoint header and the specific LTTNG tracepoint event header.

lttng/tracepoint.h

lttng/tracepoint-event.h
