

boost::statechart::
event< EvCustomTemperature
Alert >

```
classDiagram
    class A["boost::statechart::event< EvCustomTemperatureAlert >"]
    class B["sm_dance_bot::cl_temperature_sensor::EvCustomTemperatureAlert"]
    B --|> A
```

The diagram consists of two rectangular boxes, each divided into three horizontal compartments. The top box is white and contains the text 'boost::statechart::event< EvCustomTemperatureAlert >' in its top compartment, with the other two compartments empty. The bottom box is light gray and contains the text 'sm_dance_bot::cl_temperature_sensor::EvCustomTemperatureAlert' in its top compartment, with the other two compartments empty. A blue arrow with an open triangular head points from the top compartment of the bottom box to the bottom compartment of the top box, indicating a generalization relationship.
