The diagram illustrates a dependency or call relationship. Three source boxes on the left, each containing a function name (cl\_nav2z::CostmapSwitch::disable, cl\_nav2z::CostmapSwitch::enable, and cl\_nav2z::CostmapSwitch::onInitialize), have blue arrows pointing to a single target box on the right. The target box contains the function name cl\_nav2z::CostmapSwitch::getStandardCostmapName. The target box is shaded gray, while the source boxes are white with black borders.
