

cl\_nav2z::CpWaypointNavigator  
::onOrthogonalAllocation

```
graph LR; A[cl_nav2z::CpWaypointNavigator::onOrthogonalAllocation] --> B[WaypointEventDispatcher::initialize];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'cl\_nav2z::CpWaypointNavigator' on the first line and '::onOrthogonalAllocation' on the second line. The right box is gray with a black border and contains the text 'WaypointEventDispatcher' on the first line and '::initialize' on the second line.

WaypointEventDispatcher  
::initialize
