The diagram shows two class boxes. The top box is white and represents the base class `boost::statechart::event< EvWaypoint148 < TSource, TOrthogonal > >`. It has two empty compartments below the name. The bottom box is gray and represents the derived class `cl_move_base_z::EvWaypoint148 < TSource, TOrthogonal >`. It contains the member `+ waypointIndex` in its second compartment. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.
