

smacc2/include/smacc2
/smacc_tracing/trace
_provider.hpp

```
graph TD; A["smacc2/include/smacc2  
/smacc_tracing/trace  
_provider.hpp"] --> B["lttnng/tracepoint.h"]; A --> C["lttnng/tracepoint-event.h"];
```

The diagram illustrates the include relationships for the `smacc2` tracing provider. The top box, representing `smacc2/include/smacc2/smacc_tracing/trace_provider.hpp`, has two blue arrows pointing downwards to two separate boxes. The left box represents `lttnng/tracepoint.h` and the right box represents `lttnng/tracepoint-event.h`. This indicates that the `trace_provider.hpp` file includes both of these `lttnng` headers.

lttnng/tracepoint.h

lttnng/tracepoint-event.h
