

cl\_nav2z::CostmapSwitch  
::onInitialize

```
graph LR; A[cl_nav2z::CostmapSwitch::onInitialize] --> B[cl_nav2z::CostmapSwitch::registerProxyFromDynamicReconfigureServer];
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'cl\_nav2z::CostmapSwitch' on the first line and '::onInitialize' on the second line. The right box is gray with a black border and contains the text 'cl\_nav2z::CostmapSwitch' on the first line, ':registerProxyFromDynamicReconfigure' on the second line, and 'Server' on the third line.
