The diagram illustrates an inheritance relationship. The base class, `boost::statechart::event< EvWaypoint94 < TSource, TOrthogonal > >`, is shown in a white box with three empty compartments. The derived class, `cl_move_base_z::EvWaypoint94 < TSource, TOrthogonal >`, is shown in a grey box with three compartments. The first compartment of the derived class contains the class name. The second compartment contains the public member `+ waypointIndex`. The third compartment is empty. A blue arrow points from the derived class to the base class, indicating inheritance.
