

cl_nitrosz::CbPauseSlam
::onEntry

cl_nitrosz::CbResumeSlam
::onEntry

cl_nitrosz::CpSlamToolbox
::toogleState

```
graph LR; A[cl_nitrosz::CbPauseSlam::onEntry] --> C[cl_nitrosz::CpSlamToolbox::toogleState]; B[cl_nitrosz::CbResumeSlam::onEntry] --> C;
```

The diagram illustrates a functional dependency. On the left, two white rectangular boxes represent callback functions: 'cl_nitrosz::CbPauseSlam::onEntry' (top) and 'cl_nitrosz::CbResumeSlam::onEntry' (bottom). On the right, a gray rectangular box represents the target function 'cl_nitrosz::CpSlamToolbox::toogleState'. Two blue arrows originate from the right side of the left boxes and point towards the left side of the gray box, indicating that both callback functions are registered to or invoke the 'toogleState' function.
