

```
boost::statechart::  
event< EvTrue< TSource,  
        TState > >
```

The diagram shows a class hierarchy. The base class, `boost::statechart::event< EvTrue< TSource, TState > >`, is represented by a white box with a black border and is divided into three horizontal compartments. The top compartment contains the class name. The derived class, `smacc2::event_generators::EvTrue< TSource, TState >`, is represented by a gray box with a black border and is also divided into three horizontal compartments. The top compartment contains the class name. A blue arrow with an open triangular head points from the top of the derived class box to the bottom of the base class box, indicating inheritance.

```
smacc2::event_generators  
::EvTrue< TSource, TState >
```
