

```
boost::statechart::  
event< EventC< TSource,  
        TState > >
```

A UML class diagram showing inheritance. The base class is `boost::statechart::event< EventC< TSource, TState > >` and the derived class is `smacc2::state_reactors::EventC< TSource, TState >`. The inheritance is indicated by a blue arrow with an open triangle head pointing from the derived class to the base class.

```
smacc2::state_reactors  
::EventC< TSource, TState >
```
