

sm_multi_stage_1::dc
_cycle_4::StiDCCycleRinse4
::onExit

```
graph LR; A["sm_multi_stage_1::dc<br/>_cycle_4::StiDCCycleRinse4<br/>::onExit"] --> B["smacc2::ISmaccState<br/>::getLogger"]
```

A diagram showing a transition from a state to a function call. The left box, which is shaded gray, contains the text 'sm_multi_stage_1::dc', '_cycle_4::StiDCCycleRinse4', and '::onExit'. A blue arrow points from the right side of this box to the left side of the right box. The right box is white and contains the text 'smacc2::ISmaccState' and '::getLogger'.

smacc2::ISmaccState
::getLogger
