

smacc2::introspection  
::SmaccEventInfo::getSourceName

```
graph LR; A["smacc2::introspection  
::SmaccEventInfo::getSourceName"] --> B["smacc2::introspection  
::demangleSymbol"]
```

A diagram showing a call from the `getSourceName` method to the `demangleSymbol` method. The left box is shaded gray and the right box is white. A blue arrow points from the left box to the right box.
