```
graph BT; A["smacc2_sm_reference_library/sm_dance_bot_warehouse_2/src/sm_dance_bot_warehouse_2.cpp"] --> B["smacc2_sm_reference_library/sm_dance_bot_warehouse_2/sm_dance_bot_warehouse_2.hpp"]; B --> C["smacc2_sm_reference_library/sm_dance_bot_warehouse_2/include/sm_dance_bot_warehouse_2/orthogonals/or_timer.hpp"];
```

The diagram illustrates a vertical flow of file inclusion dependencies. It consists of three rectangular boxes arranged vertically, connected by blue arrows pointing upwards. The bottom box (white background) contains the source file path. The middle box (white background) contains the header file path. The top box (gray background) contains the header file path for orthogonal matrices and a timer. The arrows indicate that the source file includes the middle header, which in turn includes the top header.
