

```
boost::statechart::  
event< EvCountdownEnd  
< TReactorType, EmptyObjectTag > >
```

The diagram illustrates an inheritance relationship between two C++ event types. A light blue box at the top represents the base class, `boost::statechart::event< EvCountdownEnd< TReactorType, EmptyObjectTag > >`. A dark gray box at the bottom represents the derived class, `smacc2::state_reactors::EvCountdownEnd< TReactorType, TReactorTag >`. A blue arrow points from the top of the derived class box to the bottom of the base class box, indicating that the derived class inherits from the base class.

```
smacc2::state_reactors  
::EvCountdownEnd< TReactorType,  
TReactorTag >
```
