

```
boost::statechart::  
event< EvTransitionInactive  
Shutdown< TSourceObject,  
TOrthogonal > >
```

The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class, and a darker gray box at the bottom represents the derived class. A blue arrow points from the derived class to the base class, indicating inheritance. Both boxes are divided into three horizontal compartments. The top compartment of each box contains the class name and its template parameters. The bottom compartment of the derived class box is empty.

```
cl_lifecyclenode::EvTransition  
InactiveShutdown< TSourceObject,  
TOrthogonal >
```
