The diagram shows a vertical inheritance relationship. The top box, representing the base class, is divided into three horizontal sections. The top section contains the text 'boost::statechart::', 'event< EvWaypoint106', and '< TSource, TOrthogonal > >'. The middle and bottom sections are empty. The bottom box, representing the derived class, is also divided into three horizontal sections. The top section contains 'cl_move_base_z::EvWaypoint106' and '< TSource, TOrthogonal >'. The middle section contains '+ waypointIndex'. The bottom section is empty. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box.
