

smacc2::SmaccState  
::configure\_orthogonal  
\_internal

```
graph LR; A["smacc2::SmaccState  
::configure_orthogonal  
_internal"] --> B["smacc2::utils::cleanShort  
TypeName"]; B --> B;
```

The diagram illustrates a function call. A grey rectangular box on the left contains the text 'smacc2::SmaccState::configure\_orthogonal\_internal'. A straight blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text 'smacc2::utils::cleanShortTypeName'. A curved blue arrow originates from the top of the white box and points back to the top of the white box, representing a self-call or a recursive reference.
