

```
boost::statechart::  
event< EvCountdownEnd  
< TReactorType, EmptyObjectTag > >
```

The diagram illustrates a specialization relationship. A light blue box at the top represents the base type `boost::statechart::event< EvCountdownEnd< TReactorType, EmptyObjectTag > >`. A dark gray box at the bottom represents the specialized type `smacc2::state_reactors::EvCountdownEnd< TReactorType, TReactorTag >`. A blue arrow with a hollow triangular head points from the top of the dark gray box to the bottom of the light blue box, indicating that the dark gray type is a specialization of the light blue type.

```
smacc2::state_reactors  
::EvCountdownEnd< TReactorType,  
TReactorTag >
```
