The diagram shows a vertical inheritance relationship. The top class is 'boost::statechart::event< EvWaypoint38 < TSource, TOrthogonal > >'. The bottom class is 'cl\_move\_base\_z::EvWaypoint38 < TSource, TOrthogonal >', which is shaded gray. A blue arrow with an open triangle head points from the bottom class to the top class. The bottom class has a public attribute '+ waypointIndex' shown in its second compartment.
