

smacc2::state\_reactors  
::EgRandomGenerator::onEntry

```
graph LR; A["smacc2::state_reactors  
::EgRandomGenerator::onEntry"] --> B["smacc2::state_reactors  
::EgRandomGenerator::postRandom  
Events"]
```

A diagram showing a call from the `onEntry` method to the `postRandomEvents` method. The source box is shaded gray and the target box is white. A blue arrow points from the source to the target.
