

cl\_nitrosz::CbSeekWaypoint  
::onEntry

cl\_nitrosz::CbNavigateNext  
WaypointFree::onSucessCallback

cl\_nitrosz::CpWaypointNavigator  
Base::forward

```
graph LR; A[cl_nitrosz::CbSeekWaypoint::onEntry] --> C[cl_nitrosz::CpWaypointNavigatorBase::forward]; B[cl_nitrosz::CbNavigateNextWaypointFree::onSucessCallback] --> C;
```

The diagram illustrates a relationship between two callback functions and a base class method. On the left, there are two white rectangular boxes. The top box contains the text 'cl\_nitrosz::CbSeekWaypoint::onEntry'. The bottom box contains the text 'cl\_nitrosz::CbNavigateNextWaypointFree::onSucessCallback'. On the right, there is a gray rectangular box containing the text 'cl\_nitrosz::CpWaypointNavigatorBase::forward'. Two blue arrows point from the right side of each white box to the left side of the gray box, indicating that both callback functions are associated with or point to the 'forward' method of the 'CpWaypointNavigatorBase' class.
