

boost::statechart::
event< EvGlobalError >

```
classDiagram
    class Base["boost::statechart::event< EvGlobalError >"]
    class Derived["sm_dance_bot_warehouse_2::EvGlobalError"]
    Base <|-- Derived
```

The diagram shows a class hierarchy. The base class, 'boost::statechart::event< EvGlobalError >', is represented by a white box with a black border and is divided into three horizontal sections. The top section contains the class name. The derived class, 'sm_dance_bot_warehouse_2::EvGlobalError', is represented by a gray box with a black border and is also divided into three horizontal sections. The top section contains the class name. A blue arrow with an open triangular head points from the derived class to the base class, indicating inheritance.
