

boost::statechart::
event< EvSequenceFinished
< StateType > >

```
classDiagram
    class boost_statechart_event["boost::statechart::event< EvSequenceFinished< StateType > >"]
    class smacc2_default_events["smacc2::default_events::EvSequenceFinished< StateType >"]
    boost_statechart_event <|-- smacc2_default_events
```

The diagram shows two class boxes. The top box is white and contains the text 'boost::statechart::event< EvSequenceFinished< StateType > >'. The bottom box is gray and contains the text 'smacc2::default_events::EvSequenceFinished< StateType >'. A blue arrow with an open triangle head points from the bottom box to the top box, indicating inheritance.

smacc2::default_events
