

cl_nav2z::CbNavigateBackwards
::onEntry

cl_nav2z::CbNavigateForward
::onEntry

cl_nav2z::odom_tracker
::CpOdomTracker::setStartPoint

```
graph LR; A[cl_nav2z::CbNavigateBackwards::onEntry] --> C[cl_nav2z::odom_tracker::CpOdomTracker::setStartPoint]; B[cl_nav2z::CbNavigateForward::onEntry] --> C;
```

The diagram illustrates a callout structure. On the left, there are two white rectangular boxes with black borders. The top box contains the text 'cl_nav2z::CbNavigateBackwards::onEntry' and the bottom box contains 'cl_nav2z::CbNavigateForward::onEntry'. On the right, there is a gray rectangular box with a black border containing the text 'cl_nav2z::odom_tracker::CpOdomTracker::setStartPoint'. Two blue arrows point from the right side of the left boxes to the left side of the gray box, indicating that both 'onEntry' methods call the 'setStartPoint' method.
