

sm_pack_ml::start_sequence
_a::StiStartSequenceALoop
::loopWhileCondition

```
graph LR; A["sm_pack_ml::start_sequence  
_a::StiStartSequenceALoop  
::loopWhileCondition"] --> B["smacc2::ISmaccState  
::getLogger"]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box has a light gray background and contains three lines of text: 'sm_pack_ml::start_sequence', '_a::StiStartSequenceALoop', and '::loopWhileCondition'. The right box has a white background and contains two lines of text: 'smacc2::ISmaccState' and '::getLogger'.

smacc2::ISmaccState
