The diagram illustrates a function mapping or inheritance relationship. Three source functions, each in a white box with a black border, point via blue arrows to a single target function in a grey box with a black border. The source functions are: 1) smacc2::ISmaccClientBehavior::executeOnEntry, 2) smacc2::SmaccAsyncClientBehavior::executeOnEntry, and 3) cl\_move\_group\_interface::CbEndEffectorRotate::onEntry. The target function is smacc2::ISmaccClientBehavior::onEntry.
