The diagram illustrates a mapping or delegation of functionality. Two source functions, 'smacc2::ISmaccStateMachine::mapBehavior' and 'smacc2::ISmaccOrthogonal::setGlobalSMData', are shown on the left. Blue arrows point from each of these functions to a single target function on the right, 'smacc2::ISmaccStateMachine::setGlobalSMData'. The target function box is shaded gray, while the source function boxes are white with black borders.
