The diagram illustrates a mapping or inheritance relationship. On the left, there are three white rectangular boxes, each containing text representing a function signature. Blue arrows point from each of these three boxes to a single, larger gray rectangular box on the right. The gray box also contains text representing a function signature. The first box on the left points to the first line of the gray box. The second box on the left points to the second line of the gray box. The third box on the left points to the third line of the gray box.
