

boost::statechart::  
event< EvFail >

```
classDiagram
    class boost_statechart_event["boost::statechart::event< EvFail >"]
    class sm_multi_stage_1_evfail["sm_multi_stage_1::EvFail"]
    boost_statechart_event <|-- sm_multi_stage_1_evfail
```

The diagram consists of two class boxes. The top box, representing the base class, is white and contains the text 'boost::statechart::event< EvFail >'. It is divided into three horizontal sections by two lines. The bottom section is empty. The bottom box, representing the derived class, is gray and contains the text 'sm\_multi\_stage\_1::EvFail'. It is also divided into three horizontal sections by two lines, with the bottom section being empty. A blue arrow with an open triangular head points from the top of the bottom box to the bottom of the top box, indicating an inheritance relationship.

sm\_multi\_stage\_1::EvFail
