

sm\_dance\_bot::s\_pattern  
\_states::StiSPatternRotate4  
::runtimeConfigure

```
graph LR; A["sm_dance_bot::s_pattern_states::StiSPatternRotate4::runtimeConfigure"] --> B["smacc2::ISmaccState::getLogger"]
```

A diagram showing a call from a function in the `sm_dance_bot` namespace to a function in the `smacc2` namespace. The left box, which is shaded gray, contains the text `sm_dance_bot::s_pattern_states::StiSPatternRotate4::runtimeConfigure`. A blue arrow points from the right side of this box to the right box, which is white with a black border and contains the text `smacc2::ISmaccState::getLogger`.

smacc2::ISmaccState  
::getLogger
