

```
sm_dance_bot_strikes  
_back::radial_motion  
_states::StiRadialLoopStart  
::loopWhileCondition
```

A diagram showing a call to the `smacc2::ISmaccState::getLogger` method. On the left, a grey rectangular box contains a sequence of code lines: `sm_dance_bot_strikes`, `_back::radial_motion`, `_states::StiRadialLoopStart`, and `::loopWhileCondition`. A blue arrow points from the right side of this box to a white rectangular box on the right. The white box contains the text `smacc2::ISmaccState` followed by `::getLogger` on the next line.

```
smacc2::ISmaccState  
::getLogger
```
