The diagram illustrates an inheritance relationship. A light gray box at the top represents the base class `boost::statechart::event< EvTransitionInactiveShutdown< TSourceObject, TOrthogonal > >`. A dark gray box at the bottom represents the derived class `cl_lifecyclenode::EvTransitionInactiveShutdown< TSourceObject, TOrthogonal >`. A blue arrow with an open triangular head points from the derived class box up to the base class box, indicating that the derived class inherits from the base class.
